# Hand tacker J-13

Integrated staple slider for quick loading of staples. All parts form a single unit with no loose parts to lose.

Space-saving handle lock for safe storage when not in use

The open staple channel shows how many staples are left in the magazine.

Integrated staple slider for quick loading of staples. All parts form a single unit with no loose parts to lose.

Easily visible, coloured pictograms indicate which staples the tacker can process.

For accurate results, the design line on the front of the tacker indicates exactly where the staples exit
